Keeping Noongar Language alive

Teacher's Background Information

Like many other Aboriginal and Torres Strait Islander groups, family relationships are very important. Noongar people have large extended family connections that impacts on a child's upbringing. Noongar people use the same relationships terms like brother, sister aunty and uncle when greeting other Noongar people who are not related which is also commonly used by other Aboriginal groups across Australia.

It is a form of acknowledgement and respect to each other from one person to another.

Noongar Language

Noongar was spoken in a traditional grammatical form prior to European settlement of WA. policies of the 19th century impacted significantly on the use of **traditional Noongar** grammar, consequently the grammar changed. It is now evolved into what is termed **contemporary Noongar**.

Contemporary Noongar is heavily influenced by contact with English grammar.

Contemporary and traditional Noongar language both are valid and used appropriately.

Languages must be dynamic and evolved to survive. Research is being undertaken on both traditional and contemporary forms of Noongar language.

This package uses the contemporary Noongar Language.

Lesson overview

These activities will provide students the opportunity to engage in a step by step Noongar language learning program about family.

Key learning/ Purpose

- Identify and keywords of the birds in Noongar language;
- To identify the birds of the south west of Western Australia that are native to Noongar country.
- To learn to read and write the Noongar keywords using the Noongar grammatical system.

Resources

- Bird keyword cards
- Work book
- Craft Activity

Support Materials available online www.noongarboodjar.com.au

- Bird book and posters
- Bird bingo game

Greeting circle

Steps:

1. First you need a **Message stick** (talking stick). To make one of these, simply take a tapping stick or a stick from the garden and decorate any way you like.
2. Once you have made your stick, gather your students into a circle.
3. Explain to the students you cannot speak unless you have the message stick. This allows everyone to have the opportunity to share.
4. To begin each student will pass around the message stick saying **Kaya' (ki-ya)** (*meaning hello in Noongar language*) and then pass it on until everyone has had a turn.
5. As you work through this program you can use other words This can also be done by introducing new words from the **Bird** word list on page 3

Sentences

Create your own sentences.

Noongar language word order is very different from that in English and object S,V,O (subject verb and object) . The Noongar word order consists of S,O,V (subject object and verb.) Below is an example of the word order.

1. Kaa kaa boorn-ak nyininy.
kookaburra tree – in, on sitting.
subject object/location-suffix verb
- ak, -k – meaning in, on, at this case on

2. The next exercise will give students the opportunity to use the Noongar word order. Let's start by introducing the key word **boorn** with added suffix **-ak**, **boorn-ak** (tree –in, on)

Boorn *tree* (an object and location) –ak is the suffix added to describe *in the tree* or *on the tree*.

Generally location words, have the suffix **-ak** or **-k** attached to describe where a subject is located : e.g. **miya-k**- in the house; **on** the house. In this case the word **marlak** is an exception due to it already has – ak in it. To make pronunciation easier, the suffix – ngat is then used resulting in **marlak-ngat** *in the bush*.

Note: -k : if a word ends in a vowel such as **a, aa, i, o, oo** then the suffix will only be – **k** as in **miya-k** shown above.

-ak : if the word ends in a consonant then the suffix will be **-ak**.

Here are three examples:

1. marlak-ngat *bush-in or near*
2. boorn-ak *tree-in, on*
3. bilya-k *river- in, on*

Please refer to the Vowels and Consonants sounds on pages 15, 16 and 17.

So let's have a go in the exercise on next page.

Noongar Suffixes

Rules:

- **k**: if a word ends in a vowel such as **a, aa, i, o, oo** then the suffix will only be - **k** as in bily-**ak** river- *in, on, at*.

-**ak** : if the word does not end with one of the vowels below then the suffix will be -**ak** as in boorn-**ak** tree -*in*.

-**ngat** : *near, in*

Vowels: **a, aa, i, o, oo**

Look at the last letter of each word, this will help you decide which suffix to use -k, -ak or -ngat.

Below is a list of locations

1. boorn - _____
tree
2. bilya - _____
river
3. boodja - _____
ground
4. boya - _____
rock
5. marlak - _____
bush
6. worl - _____
sky
